Subject: _____

Missing Money Mystery Match Game - Lessons 1, 2 & 3

Directions: Match the letters of the clues with the words.

Words

1. Observation
2. Forensic Scientist
3. Properties
4. Data
5. Chain of Custody
6. Triangulation
7. Fixed Points
8. Tread
9. Physical Evidence
10. Class Evidence
11. Aerial View

Clue

- a. The view from looking down on something from above, like from an airplane.
- b. Design on the tire itself.
- c. Locations in a room that are always in the same place, like windows or corners. In a crime scene sketch, these help when drawing to scale.
- d. Any type of scientist who can supply information that can be used in court or in a legal manner. For example, forensic anthropologists recover and study skeletons so they can be identified.
- e. The paper trail that shows every transfer of the evidence from its collection at the scene to its appearance in court.
- f. Information, often in written form.
- g. Descriptive characteristics such as color, texture, shape and size.
- h. To study something using your five senses of seeing, hearing, tasting, touching and smelling.
- i. Evidence that cannot positively identify someone, like shoe prints. Lots of people wear the same kind of shoes. Other examples: blood type, soil and glass.
- j. Evidence that is part of an object or thing, and shows that a crime has been committed. Examples: weapons, handwriting and carpet.
- k. Most accurate way of showing the location of evidence at the crime scene. A triangle is created using the evidence and two fixed points.
